

models

CP series and PP series cartridges

The Advanced Water Products line of pleated cartridges are available in both cellulose and polypropylene filter media for dirt and rust reduction. These cartridges have micron ratings from 0.35 μ to 50 μ to suit all of your filtration needs. The maximum operating temperature of these cartridges is; cellulose: 51.7°C (125°F), polypropylene: 76.6°C (170°F).

features

- plastisol end caps are moulded to seal each end of pleats
- seams are heat sealed to eliminate by-pass
- high surface area of filter media for minimal initial Δp and high dirt holding capacity
- FDA approved materials
- surfactant free and binder free
- polypropylene cores
- polyethylene netting on polypropylene media filters
- individually wrapped
- available in 9 $\frac{3}{4}$ " and 20", standard and high flow models
- maximum operating temperature:
cellulose: 51.7°C (125°F)
polypropylene: 76.6°C (170°F)

specifications

MODEL	DESCRIPTION
9¾" CARTRIDGES – 2⅝" O.D. x 9¾"	
CP0.35-1	0.35 micron dirt/rust, cellulose media
CP5-1	5 micron dirt/rust, cellulose media
CP10-1	10 micron dirt/rust, cellulose media
PP1A-1	1 micron absolute dirt/rust, polypropylene media
PP1-1	1 micron dirt/rust, polypropylene media
PP5-1	5 micron dirt/rust, polypropylene media
PP20-1	20 micron dirt/rust, polypropylene media
PP30-1	30 micron dirt/rust, polypropylene media
PP50-1	50 micron dirt/rust, polypropylene media
20" CARTRIDGES – 2⅝" O.D. x 20"	
CP0.35-2	0.35 micron dirt/rust, cellulose media
CP5-2	5 micron dirt/rust, cellulose media
CP10-2	10 micron dirt/rust, cellulose media
PP1A-2	1 micron absolute dirt/rust, polypropylene media
PP1-2	1 micron dirt/rust, polypropylene media
PP5-2	5 micron dirt/rust, polypropylene media
PP20-2	20 micron dirt/rust, polypropylene media
PP30-2	30 micron dirt/rust, polypropylene media
PP50-2	50 micron dirt/rust, polypropylene media

MODEL	DESCRIPTION
9¾" HIGH FLOW CARTRIDGES – 4½" O.D. x 9¾"	
CP0.35-1HF	0.35 micron dirt/rust, cellulose media
CP5-1HF	5 micron dirt/rust, cellulose media
CP10-1HF	10 micron dirt/rust, cellulose media
PP1A-1HF	1 micron absolute dirt/rust, polypropylene media
PP1-1HF	1 micron dirt/rust, polypropylene media
PP5-1HF	5 micron dirt/rust, polypropylene media
PP20-1HF	20 micron dirt/rust, polypropylene media
PP30-1HF	30 micron dirt/rust, polypropylene media
PP50-1HF	50 micron dirt/rust, polypropylene media
20" HIGH FLOW CARTRIDGES – 4½" O.D. x 20"	
CP0.35-2HF	0.35 micron dirt/rust, cellulose media
CP5-2HF	5 micron dirt/rust, cellulose media
CP10-2HF	10 micron dirt/rust, cellulose media
PP1A-2HF	1 micron absolute dirt/rust, polypropylene media
PP1-2HF	1 micron dirt/rust, polypropylene media
PP5-2HF	5 micron dirt/rust, polypropylene media
PP20-2HF	20 micron dirt/rust, polypropylene media
PP30-2HF	30 micron dirt/rust, polypropylene media
PP50-2HF	50 micron dirt/rust, polypropylene media
